

I'm saddened that while other countries have decided not to waste money on this troubled system(BPL),Our great country is going ahead full steam.I fear what problems this is going to cause Amatuer-Radio operators across the U.S.It is truly sad when common sense and pride is all washed away by Big-Money.Though I know nothing will stop this speeding runaway about to derail train called BPL,I feel that I've at least done my part as an Amatuer-ham radio operator to voice my displeasure and worry's on this subject.good Day,
Sincerely,

KB1KOX, Neil
